

Joining a **National Saturday Club** is a chance to learn more about a subject that a young person loves and is passionate about, meet exceptional people, learn new skills and find out more about higher education and rewarding careers.

Tutors put together a 10 -12 week programme of activities using their specialist facilities and the emphasis is on exploration and discovery, broadening members' horizons and being creative and innovative. Liverpool John Moores University currently has two established Saturday clubs:

## ART AND DESIGN

October 2018

## WRITING AND TALKING

recommencing January 2019

THE UNIVERSITY IS RUNNING  
TWO **NEW** SATURDAY  
CLUBS IN JANUARY 2019

✪ **Bright Ideas and Innovation**  
✪ **Science and Crime**

Also, look out for our new course  
**'This is Public Health!'** starting  
Autumn 2019

## BRIGHT IDEAS AND INNOVATION

January 2019

This club is a space for young innovators to flex their imaginations to respond to the challenges of the 21st Century. Participants will use problem-solving techniques to respond to the United Nations Sustainable Development Goals. They will work together to develop ideas for new products or services that meet the needs of potential customers. This club is led by the Centre for Entrepreneurship, the award-winning LJMU team that support graduate start-ups.

## SCIENCE AT THE CRIME SCENE

January 2019

Join the 'Science at the Crime Scene' Saturday club to use a range of practical science skills to solve a murder! In the 12 weekly sessions from January to April 2019, you will use Biology, Chemistry and Physics based science skills to be a real life Crime Scene Investigator just like Barry Allen in The Flash!

### This is what happened...

At 3am on Monday 17th December 2018 police were called to 10 John Moores Street, Liverpool after the neighbour reported a disturbance and saw a male suspect running from the property, down John Moores Street and turning right into James Parsons Way.

The police have taken two suspects into custody and have collected evidence from both suspects. The property 10 John Moores Street is known to LJMU Police as the residence of a drug dealer, Mr A Deal. On entering the property a male body was found believed to be Mr A Deal. The forensic pathologist was called and the body was removed to the mortuary for an autopsy to be performed. Who did it!?! Is there enough evidence to prosecute them? YOU Decide!!!

Saturday Club will appeal to young people interested in issues of social justice, policy, evidence, and community change and introduces them to degree programmes in Public Health and Environmental Health.
