

KS3: Year 8

Year 8

Shrinking Rainforests

Where are our rainforests? Why are they so important? Why are they at risk and what can we do?

Growing Deserts

Where are our deserts? What are they like? Why are they growing? How can we stop them from growing?

World Cities

What are megacities? Where are they?

What happens when a city like Rio de Janeiro grows too quickly?

World Cities

What challenges do we face in our cities in the UK? How can we manage these?

Our Frozen Planet

What are glaciers and how are they formed?

Where in the world are they found?

Our Frozen Planet

Places affected by glaciation – what are the challenges? What are the opportunities?

India

With one of the biggest populations in the world, India is a land of diversity and culture. So, what is it like? What are its characteristics?

India

Is India an LIC, NEE or HIC?

How does India compare with other countries?

Geographical Information Systems

What is GIS?

Why is it such an important tool? Why is there a demand for Geographers who can use it?

Geographical Information Systems

How can GIS be used to help us to understand our world?

To Year 9 ...
