

Year 9

Sustainability

What is sustainability?
How can we make our world more sustainable?

Sustainability

If you could make one change in the world – what would it be?

Population

How is population changing? Is it the same for all countries?

Population

Why is population so important?

What do we do to manage the problems?

Natural Disasters

Our restless earth creates earthquakes and volcanoes. You will understand how.

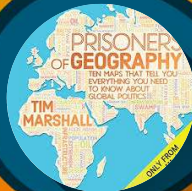

Natural Disasters

Earthquakes around the world – why are some so bad? What can we do to manage the worst hit places around the world?

Conflict

Conflict happens around the world on a local, national and global scale.

What is it? Why do conflicts take place?

Conflict

Looking at blood diamonds in Sierra Leone, colonialization in the DRC to the HS2 debate in the UK – we take a deep look at conflict around the world and it's impacts.

Africa

Known as the 'Mother Continent', it is the largest continent in the world.

Africa is a land of wonder and intrigue – we will address some of the misconceptions and celebrate diversity.

Africa

What is the future for Africa?

To Electives ...
